96016: Campus identifier

Field Information

Number: 003

Name: Campus identifier

Abbreviation: CAMPID

Length: 1

Status: Compulsory.

Description: The Campus identifier is the second part of the institution identifier: please also see the description of field 2, [HESA institution identifier](#).

Although this field is compulsory, in the majority of cases, it will default to the generic value 'A' indicating the entire institution. The Funding Councils do not require that different campuses of an institution be separated in the statistical returns.

An institution which wishes separately to identify campuses may do so by using any alphanumeric character except for 'A' in field 3. Institutions which decide so to do are asked to inform Alison Berry at HESA.

Notes: It is recognised that because of the flexibility of study patterns adopted by some institutions, it will be impossible to say categorically that some students are assigned to a particular campus. As a general rule of thumb, we suggest that a distinct Campus identifier should not be so allocated if it falls within the same county or L.E.A. boundary.

Codes other than 'A' can be used only where an institution has agreed with HESA distinct valid codes for separate campuses, and a student can be associated with a single site.

For the purposes of this field, a campus is not necessarily a physical site, but may be an administrative location.

Example: .

Reason

Required: To provide separate figures for each campus.

Valid Entries

A one character alphanumeric code.

96016: Student identifier

Field Information

Number:	004
Name:	Student identifier
Abbreviation:	HUSID
Length:	13
Status:	Compulsory.
Description:	The Student identifier is to be unique to each student. It is intended that the identifier is to be transferred with the student to each institution of higher education he/she may attend. The medium term objective is that the use of this number will allow the accurate tracking of students throughout their life within the sector for which HESA collects data.
Notes:	The Student identifier must be the reference number returned for the student in the appropriate student return.
Reason Required:	To provide a linkage between the student record and the First Destination supplement.

Valid Entries

A 13 digit numeric code.

96016: Main activity

Field Information

Number:	005
Name:	Main activity
Abbreviation:	ACTONE
Length:	2
Status:	Compulsory
Description:	<p>The field describes the sole or primary activity being undertaken by the leaver, or which they will have begun by 01 April.</p> <p>This field should be used to record either the sole activity reported by the leaver, or the activity which is ranked by the leaver as his/her main activity. It is explicit that individual leavers should themselves decide what is their "main" activity, without any further guidance.</p> <p>If this field is coded as 05 'Seeking employment or training' and field 6, Other activity is coded 09 'No other activity', it will be deduced that the leaver is unemployed, and not engaged in further study or training.</p>
Notes:	<p>It is recognised that the definition of unemployment which is derived from this record (in common with previous first destinations surveys) is not comparable with other national surveys of unemployment.</p> <p>For the purposes of this field, overseas includes all non-UK domiciled students (on entry to the programme of study giving rise to the FDS). Code 07 may be used, in conjunction with field 15, to indicate that a leaver who was an overseas student has moved back to his/her country of origin or another country outside the UK, and that no further details are known. In this case fields 6-14 and 16-17 must be left blank.</p>
Reason Required:	The information is required to record the main activities of students on completion of their courses.

Knowledge Base

How should Training for work, Gateway or government training schemes be classified? They should be Coded as 05 in Field 5 and 05 or 02 in Field 6. Then they would not appear in the count of those deemed to be unemployed.

(Advice given to enquirers)

The guidance in paragraph two of the notes (reference page 15 in the Coding Manual) is extended to read 'if this field is coded 05 'Seeking employment of training' and field 6 'Other activity' is coded 09 'No other activity or 07 'looking for a job or course', it will be deduced that the leaver is unemployed, and not engaged in further study or training.

(Guidance in FDS Circular 95/01)

Valid Entries

- 01 Entered work (paid or unpaid, including voluntary work)
- 02 Returned to/remained with previous employer

03 Self-employed

Length:	1
Status:	Compulsory, if codes 01, 02, or 03 are returned in field 5.
Description:	This field describes whether the leaver's employment is paid or unpaid.

Reason Required:	To determine whether HE leavers' employment is paid or unpaid.

Knowledge Base

How should Research assistants in Universities and Companies be returned on the FDS Record? The research assistants should be coded as main activity 01 'Entered Work', with the appropriate SOC Code reflecting their occupation as a researcher. We would not expect a secondary activity to be returned in this case, as further study or training is part of their main activity.

Where the student enters the employment and additionally pursues further study or training e.g. to gain professional status two activities would be recorded

for example

Trainee accountants, whose main activity would be coded as 01 'Entered Work' and a SOC code of Accountancy. The study or training would be separate to their employment and so should be classed as a secondary activity.

(Advice given to enquirers)

The guidance given for completion of the model questionnaire does not route self-employed people to the questions related to the coding of these fields. For this reason, for those coded as 03 'Self employed' in Field 5 'Main activity' the default code of 9 'Not known/reported' will be acceptable in Fields 7 and 9.

(Guidance in FDS Circular 95/01)

Valid Entries

- 1 Paid
- 2 Unpaid (including voluntary work)
- 9 Not known

Reason Required:	To provide information about the links between employment and sponsorship.

Knowledge Base

The Standard Occupation Classification for the FDS (SOC (FDS)) contains numeric codes of up to 4 digits. However for Fields 12 and 14, the specified field length is 6 and field type alphanumeric. This is because the CASOC (Computer Assisted SOC) package can generate a code of 4 digits followed by 2 letters. Institutions using CASOC may therefore use all 6 characters, i.e. 4 digits followed by 2 letters. Institutions not using CASOC should return 4 digits followed by 2 blanks, i.e. the field should be returned left justified with trailing spaces.

The Standard Occupation Classification for the FDS (SOC (FDS)) contains numeric codes of up to 4 digits. Within this framework, a trailing zero (i.e. the fourth digit is zero) is used to indicate the fact that no further distinction is made below the unit group (3-digit) level. Thus in many occupations there exists only one 4-digit category, which is simply the corresponding 3-digit category plus a trailing zero. In all cases a trailing zero can be added to a 3-digit category when no further distinction is possible.

In the event that no further distinction is possible than at a major group (2-digit) level, then the space for the two remaining digits is to be left blank. In these cases, therefore, institutions should return 2 digits followed by 4 blanks.

For example, in Major Group 2 'Professional Occupations', a natural scientist whose speciality is unknown must be coded 20---- (20 followed by 4 blanks) and not either 200 or 2000, codes which both specify 'Natural Scientists, Chemists'.

If the occupation is not known, code 9999 'Not known' should be used.

Knowledge Base

The Standard Occupation Classification for the FDS (SOC (FDS)) contains numeric codes of up to 4 digits. However for Fields 12 and 14, the specified field length is 6 and field type alphanumeric. This is because the CASOC (Computer Assisted SOC) package can generate a code of 4 digits followed by 2 letters. Institutions using CASOC may therefore use all 6 characters, i.e. 4 digits followed by 2 letters. Institutions not using CASOC should return 4 digits followed by 2 blanks, i.e. the field should be returned left justified with trailing spaces.

The Standard Occupation Classification for the FDS (SOC (FDS)) contains numeric codes of up to 4 digits. Within this framework, a trailing zero (i.e. the fourth digit is zero) is used to indicate the fact that no further distinction is made below the unit group (3-digit) level. Thus in many occupations there exists only one 4-digit category, which is simply the corresponding 3-digit category plus a trailing zero. In all cases a trailing zero can be added to a 3-digit category when no further distinction is possible.

In the event that no further distinction is possible than at a major group (2-digit) level, then the space for the two remaining digits is to be left blank. In these cases, therefore, institutions should return 2 digits followed by 4 blanks.

For example, in Major Group 2 'Professional Occupations', a natural scientist whose speciality is unknown must be coded 20---- (20 followed by 4 blanks) and not either 200 or 2000, codes which both specify 'Natural Scientists, Chemists'.

If the occupation is not known, code 9999 'Not known' should be used.
